

GOVERNMENT COLLEGE AUTONOMOUS, RAJAHMUNDRY

AFFILIATED TO ADIKAVI NANNAYA UNIVERSITY

ABOUT WORKSHOP

Outcome-based education is an effective approach to teaching and learning that focuses on the results of education, rather than just the process of instruction. It provides clear learning outcomes, aligned assessments, competency-based learning, and continuous improvement. Implementing OBE requires collaboration and effort from all stakeholders, but the benefits for students and educators are well worth the investment. The National Education Policy (NEP) 2020 in India has emphasized the importance of Outcome-Based Education (OBE) in promoting quality education. The NEP recognizes that education should be outcome-oriented, focusing on the development of cognitive, social, and emotional skills and competencies in students. To make the faculty self-reliant in implementing the NEP-2020, the Government College Autonomous, Rajahmundry is organizing a 2-Day National Workshop.

Cell (IQAC)

ABOUT COLLEGE

The Government College (Autonomous), Rajahmundry, since its inception in 1853, has been providing a world-class education coupled with life skills, soft skills and ethics for more than one and half centuries and is known as the campus of inspiration. We believe that powerful teaching-learning occurs with a shared spirit of responsibility and temperament which creates a passionate learning experience for students and the college is known for its warmth, energy, and excellence in these lines. The college has been producing gems of students for the adornment of mother India and spreading the knowledge across the globe. The students of this Alma matter were later turned into giants in various global spheres. Currently, the College is offering 49 UG and 14 PG programs and catering to the educational needs of more than 7000 students.
