The above Provisional Affiliation is granted subject to fulfilment of deficiencies, if any.

The above Provisional Affiliation is granted subject to compliance of other conditions as furnished hereunder from the date of issuance of this Order.

- 1 These orders shall be in force for a period of one academic year as indicated in the subject, if the College is permitted to function in rented building. The management should renew their affiliation in each academic year until Provisional Affiliation is granted.
- 2 The University has the authority and reserves the right to withdraw the affiliation, at any point of time, on any action of the Management / College which damages or causes disrepute to the Government / University and other instrumentality of the State / Central Government.
- 3 The Management / College shall fulfill the deficiencies within a period of three months and send compliance along with documentary evidence to the University, failing which, the University has authority to withdraw its affiliation.
- 4 The management should obtain prior approval from the concerned authority for establishment of the College and offering courses etc. before applying for the affiliation, failing which the affiliation accorded is deemed to be cancelled without any further notice.
- 5 The management shall follow the rules issued by the Government / Competent Authority from time to time on all aspects related to the administration of the college.
- 6 The staff appointed should be qualified as per the rules and regulations issued by UGC or concerned Body.
- 7 Infrastructure like Buildings, Land, Playground, Lab equipment, Library, Furniture etc., should be well maintained for the effective functioning of the College.
- 8 The balance of Corpus Fund, if applicable, should be deposited as per rules in force.
- 9 The management should not change the Programs / Combinations, intake and media etc. sanctioned in these proceedings, failing which, such action will be construed as tampering of records for which the University will initiate necessary legal action against the Management.
- 10 The Management shall neither make any excess admissions without approval of the concerned competent authority and the university nor make admissions without affiliation of the University .
- 11 The Management shall publish prospectus of its programs offered and all other institutional details along with fee prescribed.
- 12 If the management is permitted to start the College in a rented building, they should construct permanent building for the College in the same mandal within a period of five years.
- 13 The accommodation shown for the College should not be used for any other purpose other than running the college for which permission is given by such Body and the University.
- 14 The management should not make any claim from the Government or instrumentality of the Government for any grant-in-aid either now or in future, if the College is offering unaided Programs.
- 15 The Management (a) should not shift the College to any other place; (b) should not change the name of the College, (c) should not transfer the management of the College and (d) should not convert Women's College to Co-Education and vice-versa (e) shall not mortgage its assets without prior permission of such Body and the university.
- 16 The management of the College shall set up a grievance and complaints cell as per the Supreme Court / UGC guidelines for dealing with sexual harassment / ragging related cases and other grievances etc.
- 17 The management should establish a website for the college and keep all the necessary academic and administrative information in the website.
- 18 The University reserves the right to conduct surprise checks at any time. The University also reserves the right to cancel affiliation of the college at any stage, if it is found that the documents produced by the management are false, interpolated and improper and the management is not able to run the college as per the norms of the Government and academic stipulations of the University, apart from any defaults/irregularities committed which would attract legal proceedings under Law.
- 19 The Management or any other person of the Management of the College shall not collect any capitation fee and the same is prohibited as per AP Capitation fee Act 1983.
- 20 The Management shall not allow malpractices in the examination and the same is prohibited.
- 21 The Management shall ensure the non-availability of carbonated beverages and junk foods around 200 meters of the premises.

Government Autonomous College Rajamahendravaram

(Affiliated to Adikavi Nannaya University)

Teaching and Learning Policy

1. Introduction

Teaching and Learning should be planned, delivered and followed-up in accordance with the values and principles enshrined in the policy.

2. Aim of the Policy

The aim of this policy is to outline College approach to the expectations for teaching and learning, the means by which it strives to achieve outstanding teaching & learning objectives.

3. General principles underlying the policy

- i. Academic staff share, follow and uphold the values and principles set out in the policy
- ii. Academic staff receive training, guidance and support, enabling them to contribute to the provisions of outstanding teaching and learning at the College
- iii. Students are encouraged to behave in a manner that facilitates their learning, all-round development and progression.

4. Purpose

College is a part of Study Group and as such our policies align to Study Groups' mission:

- i. To prepare students to live in a competitive world and success in global arena
- ii. Enabling them to realize their potentials through a transformational learning experience.

Within this broad aim, the purpose of the College is to enable students from all backgrounds and abilities to reach their maximum potential, academically and as individuals, achieving the best possible academic results, progressing to the best possible universities and, as a result, building a successful and rewarding career in their field of choice.

Through innovation, creative, diversity and breadth of programs, outstanding teaching and learning, and global reach, the College strives to transform the educational experience of every individual.

5. The College context

- i. College students are aged between 17 years and upwards, the majority of whom choose to come to continue their academic pursuits and progress to leading universities, or in other academic excellence hubs. Our academic policies recognize the diversity of our student community and provide an effective operating framework to support and stretch our students.
- ii. College represents the first experience of Indian education for our students and, as such, our teachers act as role models in shaping a positive attitude to learning and subsequent success in their endeavors in education.

- iii. Programs offered include academic programs such as Computer Skills, Foundation course at I year Undergraduate and Pre-Masters preparation as well as communicative and professional skills for subsequent academic programs.
- iv. College academic policies, such as this policy, should be read in conjunction with other policies of the college.

6. Teaching & learning principles

The approach of the College towards teaching & learning is underpinned by the following key principles:

- i. Teaching & learning should be a professional, positive, engaging and rewarding partnership between teacher and the taught.
- ii. Teachers should ensure that their students fully understand the learning objectives of their studies at every stage. In turn, students should reflect on their own progress towards achieving their goals and share responsibilities for their learning outcome.
- iii. Teachers should develop the skills, confidence and motivation in students to transform into successful independent learners in their academic pursuits.
- iv. The teachers should support the acquisition of English language skills and thereby open cultural, social boundaries of the students.
- v. Teachers should approach teaching & learning with a cosmopolitan outlook, actively seek new ways to motivate and engage students and utilize the technology and other resources available to enhance the teaching & learning experience.
- vi. Each and every student should be provided with the equal opportunities, resources and support they need to fulfil their academic pursuits.
- vii. Teachers should be provided with the opportunities, resources, training and support they need to fulfil their teaching abilities
- viii. Teachers are encouraged to be reflective, assessing their own performance and developmental needs, and to work together to share best practices and support each other's prospects.

7. The approach to teaching & learning

The College defines its approach to teaching & learning based on its vision, context and guiding principles, as follows:

7.1 Admissions

- i. Admission criteria has been advanced to ensure that students have suitable academic foundations and communicative and professional skills to progress in their chosen academic programme
- ii. Student admissions are monitored by the Academic Cell of the college through various committees, who provide information, advice and guidance in order to help students to choose the right program and prepare for their studies.

7.2 Planning and Tailoring

- i. Programs that enable progression into higher education have been specially cater to the needs of the students.
- ii. Curriculum policies are in place for every programme and are reviewed and updated from time to time to reflect the needs and goals of the students, akin to the global academic standards.

- iii. Content and delivery is planned from a programme at every stage through innovative pedagogical strategies to meet defined learning objectives.
- iv. Programme-level planning takes the form of a set of periodically reviewed and updated curriculum and expertise of teaching faculty and the outcome of self-evaluation process.
- v. Subject/module-specific planning takes the form of detailed schemes of work, which are adopted and updated by teachers individually throughout the delivery of each programme.
- vi. Individual lesson plans, based on evolving schemes of work, are formulated according to academic requirements of the college.
- vii. Schemes of work and individual lesson plans are tailored to meet the needs of each student group
- viii. Teachers are informed regarding the educational background and culture, language ability, age-range and gender-mix of the students in the classes they teach, through student and class profile reports
- ix. Teachers evaluate the academic ability of their students at the beginning of their programme of study, using baseline academic data and the outcomes of cognitive ability tests
- x. Teachers put their experience and understanding of different learning abilities of the students to plan lessons that engage and actively involve their students
- xi. Students with Special Educational Needs or Disabilities (SEND), including those who are gifted, are identified and managed through a linked-up, expert-led process.

7.3 Monitoring attendance and progress

- i. Using individual student profile reports and the results of cognitive abilities and/or English language tests as a means to determine academic targets, proctor meet with students regularly to monitor their progress during academic sessions.
- ii. Teachers record attendance, homework, test and assessment marks in a systematic form for each student on an on-going basis, enabling proctors to access all relevant information for student monitoring purposes.
- iii. Proctors identify and address areas of concern, promote areas of interest and ability, and motivate students to reach their academic pursuits.

7.4 Delivery

- i. Teachers introduce and employ a variety of teaching and learning methods and resources, both inside and outside the classroom, to enthuse, motivate, challenge and involve students, including:
 - a. Experiential learning
 - b. Intelligent Questioning Techniques
 - c. Practical activities
 - d. Interactive seminar- and tutorial-style sessions
 - e. Use of other interactive methods/resources
 - f. Teacher-led lessons
 - g. Use of a Virtual Learning Environment and other media
 - h. Field trips and visits
 - i. Invited speakers/experts
 - j. Case study-based group work

- k. Research-based assignments
- ii. Students are made aware of the learning objectives for each lesson to enable them to evaluate their own understanding and progress and identify when they need help or clarification. Learning objectives clearly distinguish the acquisition of subject knowledge from the development of learning and other skills
- iii. Success criteria are clearly defined for the students, so that they know what they have to do in order to meet learning objectives and to achieve the assessment outcome.
- iv. Lesson content is reinforced through assignments, key tests and provision of learning resources available to students outside of lesson time
- v. Teachers embed principles that support students' spiritual, moral, social and cultural (SMSC) development within their approach to teaching and learning
- vi. In addition to teaching, every lesson and assignments shares a focus to reinforce and strengthen English language, numeracy, independent learning, communication and reasoning skills.

7.5 Providing feedback

- i. Students receive regular and timely feedback on progress through dedicated tutorial sessions, and on assessments in accordance with College assessment policies and procedures
- ii. Feedback addresses progress regarding the acquisition of subject knowledge as well as the development of key skills relevant to the learning process
- iii. Students are given academic reports for each semester, which, in addition to showing assessment marks, include feedback from their teacher with regard to their perceived strengths and weaknesses and how they can improve and maximize their chances of progression
- iv. Parents/guardians also receive the academic reports, facilitating their involvement in their children's learning.

7.6 Advice and support

- i. Proctors and teachers share and discuss student feedback and collaborate to ensure the effective, relevant and timely learning support for the needy students
- ii. Students are given appropriate advice regarding their progression plans in response to the progress they are making on their current programme and their final outcomes, in accordance with *Student Progression Policy and Procedures*
- iii. Teachers support each student's spiritual, moral, social, cultural, intellectual and physical development, in conjunction with their welfare.

8. Supporting and developing teaching and learning provision

8.1 Teacher support and development

- i. The academic staff participates in a Continuing Professional Development (CPD) programs, in accordance with UGC/Government *Policy and Procedures*. Training and development provision is based on college-wide and individual/group needs. Individual needs are identified and recorded as part of lesson observation and peer support work and annual staff appraisal processes.
- ii. College teachers should all hold or be working towards gaining a UGC recognized

teaching qualification. Teachers working towards qualifications alongside college work will be supported and afforded flexibility wherever possible.

- iii. Academic staff participate in a peer support programme, consisting of a variety of activities conducted in pairs and subsequent discussion of feedback and suggested approaches to development.
- iv. Staff also should have access to a virtual learning environment (VLE), called Study Smart, where teaching and learning documents and training materials are stored and shared.
- v. Additional support is available individually to staff through regular meetings with their in-charges/ Head of the Institution and annual staff appraisal activities.

8.2 Learner support and development

College supports learner development through ensuring each lesson has a focus on skills as well as subject knowledge acquisition. Dedicated tutorial sessions individualize this further, allowing students with particular development need to be identified and the appropriate support put in place.

In addition, Study Smart VLE is there for student learning activities that are encouraged outside of lesson time.

Study Smart allows students to:

- i. Access lesson content as and when they need to, giving them more independence and control over their learning
- ii. Review learning outcomes and access extension activities, assignments and coursework tasks
- iii. Access to a record of grades and feedback they have received to date, helping them to self-evaluate their performance and ascertain which areas they need to review or request help with
- iv. Catch up with lesson material they might have missed or need to revisit
- v. Access to a platform that allows extended learning collaboration opportunities with other students. This include features such as fora's and chat, and activities that can be harnessed to make courses more interactive and allow students to express their views and work collaboratively towards goals, even when they are outside of the classroom
- vi. Experience a wide range of multimedia web-based content, making courses richer and useful, more engaging, multidimensional learning experiences
- vii. Access and explore a wide range of digital technologies and methodologies. For example, Flipped Learning videos created by teachers, with accompanying activities embedded into VLE courses.

8.3 The role of self-evaluation

Self-evaluation plays a key role in making meaningful and beneficial changes to our teaching and learning provision.

Further information on self-evaluation can be summarized below are the main on-going internal self-evaluation activities that work in parallel with college-level evaluation to support and inform teaching and learning practices:

- i. Staff appraisal – academic staff participate in an annual cycle of prospective and retrospective appraisal activities which enable staff to identify their own development goals and line managers to become aware of any needs for improvement in performance
- ii. Lesson observation – lessons are observed internally and externally as and when possible. Teaching standards are evaluated and any necessary remedial steps taken
- iii. Programme evaluation – key programme parameters are measured to assess programme performance and identify areas for development work
- iv. Soliciting student feedback – student opinion and feedback is surveyed at the start, mid-point and end of their programme of study
- v. Soliciting staff feedback – staff are encouraged to provide feedback on college policies and practices, and any other area of concern or where it is felt beneficial changes could be made.

9. Expectations of students and staff

In order that our vision and principles are upheld and teaching and learning practices are carried out in accordance with our defined approach, the College has the following expectations of students and staff:

9.1 Expectations of students

Students play a key role in their own learning and success and College expresses to students before and after arrival its expectations with regard to their responsibilities and behavior throughout their programs of study, as outlined below.

Students are expected to:

- i. Actively participate in and reflect upon their own learning and share responsibility for their progress and outcomes

Dear **Dr. A. Srinivasa Rao,**

Warm congratulations from CREATE, Government College (A), Rajahmundry for the successful award of the project. With reference to your research proposal and application for seed money under CREATE head and the recommendations of BRS committee of the college, the principal is pleased to grant funding for the project with the details as furnished below.

Name of the Faculty	Dr. A. Srinivasa Rao
Department	Botany
Approved Title of the Project	Enumeration of Weed Plants in Rajahmundry rural Mandal to Ascertain Economically Useful and Noxious Species
Budget Approved in Rs.	1,50,000/-
Budget Allocation	CREATE Funds
Duration of the project	18 Months

You are hereby authorized to utilize the sanctioned amount strictly adhering to the following conditions.

1. A current account should be created in any bank of your convenience with the name "SEED FUND GC (A) MRP <YOUR NAME>"
2. Amounts less than Rs. 10,000/- may be withdrawn directly and beyond that withdrawals require proper quotation and procedures.
3. The project duration is 18 months which may be extended to further 6 months if needed.
4. Beyond the tenure of two years, you are not eligible to apply for CREATE funding for the next two years thereafter.
5. Two publications are mandatory in UGC approved and/or Scopus/Web of Science indexed journals during the project tenure with college affiliation.
6. At the end of the project, well audited utilization certificate should be submitted along with original bills and invoices to the administrative office before the end of the financial year.
7. A detailed project report should be submitted in the prescribed format to the BRS office.

The funding will enable you to pursue your research endeavors and contribute significantly to the academic and research standing of our institution.

Ref: 1) Your Research Proposal submitted to Board of research Studies, GCRJY during 2023-24.
2) Recommendation of the Board of Research Studies, GCRJY, 27.01.2024

Dear **Dr. Babbadi Gowrinaidu,**

Warm congratulations from CREATE, Government College (A), Rajahmundry for the successful award of the project. With reference to your research proposal and application for seed money under CREATE head and the recommendations of BRS committee of the college, the principal is pleased to grant funding for the project with the details as furnished below.

Name of the Faculty	Dr. Babbadi Gowrinaidu
Department	Physics
Approved Title of the Project	The effect of heavy metal substitution on the magnetism of certain Heusler alloys
Budget Approved in Rs.	1,40,000/-
Budget Allocation	CREATE Funds
Duration of the project	18 Months

You are hereby authorized to utilize the sanctioned amount strictly adhering to the following conditions.

1. A current account should be created in any bank of your convenience with the name "SEED FUND GC (A) MRP <YOUR NAME>"
2. Amounts less than Rs. 10,000/- may be withdrawn directly and beyond that withdrawals require proper quotation and procedures.
3. The project duration is 18 months which may be extended to further 6 months if needed.
4. Beyond the tenure of two years, you are not eligible to apply for CREATE funding for the next two years thereafter.
5. Two publications are mandatory in UGC approved and/or Scopus/Web of Science indexed journals during the project tenure with college affiliation.
6. At the end of the project, well audited utilization certificate should be submitted along with original bills and invoices to the administrative office before the end of the financial year.
7. A detailed project report should be submitted in the prescribed format to the BRS office.

The funding will enable you to pursue your research endeavors and contribute significantly to the academic and research standing of our institution.

15	Dr.A Srinivasa Rao	Applications of Chitinases and Future Prospectives	Chitinases are multifunctional biocatalysts for the pest control and useful in modern biotechnology and pharmaceutical industries. Chemical-based fungicides and insecticides have caused more severe effects on environment and human health. Many pathogenic fungal species and insects became resistant to the chemical pesticides. The resistant fungi emerged as a multidrug resistant also and less susceptible insects are not possible to control adequately. Chitinases have an immense potential to be exploited as a biopesticide against fungi and insects. The direct use of chitinase in liquid formulation or whole microbial enzyme producing cells, both acts as antagonistically against the pests. Chitinase can disintegrate the fungal cell wall and insect integument that holds the chitin as a vital structural component. Moreover, chitinase is applied for the synthesis of pharmaceutically important chitooligosaccharides (COs) and low molecular weight chitosans (LMWCs). Chitinase producing microbes have the huge potential to utilize against the waste management of sea food remains like shells of crustaceans. Chitinase is valuable for the synthesis of protoplasts from industrially important fungi, further it acts as the biocontrol agent of malaria and dengue fever causing larvae of mosquitoes. Chitinases also have been successfully used in wine and single cell protein production in (SCP) industries. Present review is illustrating the updated	2023	978-93-94766-42-6		Scieng Publications, Chennai/Virginia, USA

			information on the different sources of chitinases, applications and future perspectives of chitinases in agriculture and biotechnology industry.				
16	A Srinivasa Rao	Algae Utilizations -An Overview	Seaweeds are one of the commercially important marine living and renewable resources of our country. They contain more than 60 trace elements, minerals, protein, iodine, bromine, vitamins and several bioactive substances of economic value and they also serve as both feeding and breeding grounds for invertebrates and fishes. Algae are important as a source of food for fishes, aquatic animals, mammals and other animals. Biologists suggest that algae might be used as a source of food. Algae can play an important role in supplementary protein for human food. In some coastal parts of the world particularly in the Pacific islands, over hundred species of algae (red, brown and green algae) form a regular portion of diet. Spirogyra and Oedogonium in India and Ulva in Europe are used in soup preparation. Nostoc is boiled and used as food in Brazil. In the Pacific islands red and brown algae are chopped and added to other dishes. The young stipes of Laminarian (Konbu) and	2024	978-93-94766-96-9		Scieng Publications, Chennai/Virginia,USA

			Sporophylls of <i>Alaria</i> are also eaten in Japan. <i>Durvillea</i> and <i>Ulva</i> are dried, salted and sold. <i>Ulva lactuca</i> is used in salad and soups in Scotland. <i>Porphyra</i> is considered in Chile. The coastal people of China and Japan use <i>Parphyra tenera</i>, <i>Laminaria</i>, <i>Monostorma</i>, <i>Undaria</i> and <i>Sargassum</i>. About 25% of the daily diet of Japan consists of seaweeds. Algae are considered to be ideal Biotechnological tools in terms of food, fodder, manure, pharmaceuticals, cosmeceutical, nutraceutical and pollution abatement. Hence it is essential to study in detail.				
17	A Srinivasa Rao	Biodiversity and Conservation Strategies for Algae	The term “Biodiversity” refers to the variety and variability among organisms and the ecological complexes in which they occur. Thus, biodiversity can be defined as the totality of genes, species and ecosystem of a region. Sustainable management ensures that the rate of exploitation of biological species by man does not exceed the rate of their regeneration or reproduction. Sustainable management of biodiversity ensure the survival of all the biological species in the world and thereby follows the same trend of nature. So sustainable management can be called a nature-friendly approach. Sustainable management of biodiversity promotes the maintenance of genetic diversity that is the basis of any genetic improvement work and indirectly promotes climatic stability and soil productivity. Diverse biological species and their gene pool act as the storehouse of	2024	978-93-94766-96-9		Scieng Publications, Chennai/Virginia, USA

			valuable genes that can exhibit suitable phenotypes to overcome the biotic as well as abiotic stresses. Sustainable management of biodiversity thus holds a great promise in ensuring better life support to our offspring through food security. It is the sustainable management alone that can utilize biodiversity not only to meet our present needs but also future needs.

Subject: Completion of Short-Term Internship for 944 Students during May 06th 2024 – June 30th 2024.

Respected Sir/Madam,

I hope this letter finds you in good health. I am writing to inform you about the successful completion of the short-term internship program for 944 students during the period from May 06th 2024 – June 30th 2024. This internship was an essential part of our academic curriculum, aimed at providing students with practical exposure to their respective fields of study.

Over the course of these two months, the students actively participated in various activities, including workshops and hands-on training, which allowed them to apply theoretical knowledge to real-world situations. The program has significantly contributed to their skill development, enhancing their academic experience and preparing them for future career opportunities.

We are grateful to all the organizations and professionals who collaborated with us and provided valuable mentorship during this period. Their contribution has been crucial to the success of the internship.

We kindly request you to acknowledge the successful completion of this internship program, and we look forward to your support in continuing such initiatives in the future.

Thank you for your guidance and support.

Yours sincerely,

Subject: Completion of Long-Term Internship for 538 Students during 16/Oct/2023 – 20/Jan/2024.

Respected Sir/Madam,

I am writing to inform you about the successful completion of the long-term internship program for 538 students during the period from 16/Oct/2023 – 20/Jan/2024. This internship was an essential part of our academic curriculum, aimed at providing students with practical exposure to their respective fields of study.

Over the course the students actively participated in various activities, including workshops and hands-on project training, which allowed them to apply theoretical knowledge to real-world situations. The program has significantly contributed to their live industry project level experience to the students. enhancing their academic experience and preparing them for future career opportunities.

We kindly request you to acknowledge the successful completion of this internship program, and we look forward to your support in continuing such initiatives in the future.

Thank you for your guidance and support.

Yours sincerely,
