FACULTY & STAFF DRIVE

SASA

GREEN MISSION

1. PROGRAM OVERVIEW & OBJECTIVES

On **3rd October 2026**, the Department of Political Science successfully conducted a comprehensive **SASA "Clean and Green" Campus Drive**. The initiative aimed to promote environmental stewardship, civic responsibility, and active community participation among political science scholars and faculty.

Under the SASA institutional framework, students from both **Undergraduate (UG)** and **Postgraduate (PG)** programs, accompanied by department staff and faculty members, actively engaged in removing wild foliage, cleaning garden corridors, and beautifying the campus grounds surrounding the political science wing.

Core Objective: To foster institutional civic responsibility, instill green values, and create a pristine academic environment through collective community action.

2. KEY ACTIVITIES EXECUTED

- **Weed Clearing & Bush Removal:** Clearing overgrown wild grass and unkempt brush from the rear and front courtyards of the department.
- **Litter & Waste Management:** Collecting non-biodegradable waste, dry twigs, and loose leaf debris for proper disposal.
- **Plantation & Maintenance:** Preserving existing campus trees and nurturing green flower beds to maintain ecological balance.
- **Faculty-Student Engagement:** Joint hands-on participation from professors and UG/PG students promoting teamwork and unity.

3. INSTITUTIONAL IMPACT

The event achieved full participation across all year groups, restoring the cleanliness and visual appeal of the departmental grounds while raising awareness regarding environmental citizenship among future social scientists.

■ 4. EVENT PHOTO GALLERY – KICKOFF & INITIAL CLEARING

Photographs capturing the initial gathering of Undergraduate and Postgraduate students along with faculty members during the SASA Clean and Green initiative on 3rd October.
