

DEPARTMENT OF CHEMISTRY

NATIONAL POLLUTION CONTROL DAY

Date of the Programme: 02.012.2025

Venue: Room Number 99

National Pollution Control Day is observed every year on December 2 to raise awareness about environmental pollution and promote measures to control it. The day commemorates the victims of the Bhopal Gas Tragedy, emphasizing the importance of environmental safety and sustainable practices. On this occasion, The Department of Chemistry organized an awareness program to educate students about pollution control and environmental protection.

Objectives of this Program:

- To create awareness about different types of pollution (air, water, soil, and noise).
- To educate students on the causes and harmful effects of pollution on human health and ecosystems.
- To promote eco-friendly practices and sustainable living.
- To encourage student participation in environmental protection activities.
- To encourage student participation in environmental protection activities.

Activity Conducted:

Awareness lecture on pollution control and environmental sustainability

Addressing Students by Programme Coordinator

Addressing Students by HoD

Introduction about the students

కాలుష్య నివారణపై అవగాహన

దేవీచౌక్, న్యూస్టుడే: జాతీయ కాలుష్య నియంత్రణ దినోత్సవం పురస్కరించుకుని రాజమహేంద్రవరం ప్రభుత్వ ఆర్ట్స్ కళాశాల రసాయనశాస్త్ర విభాగం ఆధ్వర్యంలో కాలుష్యం పట్ల కలిగే నష్టాలు, నియంత్రణ చర్యలపై మంగళవారం విద్యార్థులకు అవగాహన కార్యక్రమం నిర్వహించారు. ఈ సందర్భంగా కార్యక్రమ సమన్వయకర్త డాక్టర్ ఎల్.రాజేశ్వరి భోపాల్ వాయువు దుర్లభతన వివరించారు. అధ్యాపకులు పద్మజ, నరసింహారావు, కె.వెంకట్రావు, శాంతకుమారి, సురేఖ తదితరులు పాల్గొన్నారు.

Paper Clippings

Outcomes of this Program:

- Students gained a clear understanding of pollution sources and prevention strategies.
- Increased awareness about environmental responsibility among participants.
- Active student engagement in eco-friendly initiatives such as tree plantation.
- Enhanced motivation to adopt sustainable practices in daily life.
- Strengthened commitment towards maintaining a clean and green campus.

Conclusion: The National Pollution Control Day event was successfully conducted with enthusiastic participation from students and faculty. The program effectively conveyed the significance of pollution control and inspired students to contribute towards a healthier and sustainable environment.
