### Declaration

I hereby declare that **Government College (Autonomous), Rajamahendravaram** has implemented 5 **Rain Water Harvesting system** within the college campus as part of its commitment to **water conservation and environmental sustainability**.

The rain water harvesting facility is designed to collect, store, and recharge rainwater for effective utilization, thereby reducing dependence on conventional water sources and promoting responsible water management practices. The system is maintained and monitored periodically to ensure its effective functioning.

This initiative supports the institution's green campus and sustainable development objectives.
