About the College

Established in 1853 and upgraded to a college in 1873, Government College Rajahmundry focuses on academic excellence, ethical values, and knowledge advancement. Granted autonomous status in 2000, the college emphasizes research, training, and inclusive education. Accredited NAAC A+ with CGPA 3.38/4.00, it offers 34 undergraduate and 14 postgraduate programs, along with 9 research centers providing doctoral fellowships. The institution proudly serves around 7000 students and is recognized as a research study center by Adikavi Nannaya University and Andhra University.

Department of Chemistry

The Department of Chemistry is supported by 25 experienced faculty members committed to academic excellence, research, skill development, and student success. The department actively promotes the integration of laboratory research with practical and industrial applications through lectures, field-oriented learning, collaborative projects, workshops, and research activities. The department offers 3 undergraduate programmes, 3 postgraduate programmes, and 1 certificate course with a strong emphasis on industrial chemistry, green and sustainable technologies, innovative research, and career-oriented education

About the Conference

Sustainability is no longer a choice—it is the foundation of a resilient future. This conference brings together renowned researchers, academicians, scientists, industry professionals, and young innovators from across the globe to explore transformative advances in green research, clean energy, and environmental networking. It serves as a vibrant platform for exchanging ideas, fostering interdisciplinary collaborations, and developing practical solutions to global environmental challenges. Together, we aspire to accelerate scientific innovation and build a sustainable world for future generations.

Objectives of the Conference/Themes

- Green research, sustainable technologies, and green chemistry for environmental protection
- Renewable energy systems, energy storage technologies, and clean energy transitions
- Sustainable materials, bio-based innovations, and circular economy approaches
- Environmental remediation, pollution control, waste management, and resource utilization
- Smart environmental monitoring, AI-driven solutions, and climate sustainability
- Academia-industry-research collaborations for innovation and sustainable development
- Scientific awareness, global environmental networking, and youth participation in green research

Awards

Oral Presentations

Eligibility : Research Scholars / Students
Topic : Conference Themes

Best Oral Presentation Awards will be presented for outstanding presentations under various conference themes

Poster Presentations

Eligibility : Research Scholars / Students
Themes : Conference Topics

Best Poster Presentation Awards will be presented for outstanding presentations under various conference themes

Note : Certificate of Appreciation will be issued

Call for Papers

Authors are invited to submit original research papers/review articles for oral and poster presentations in the thematic areas of ICGREEN 2026. Abstracts should be limited to 200-300 words and prepared in Times New Roman, 12-point font with 1.5 line spacing in .doc/docx format. Each abstract must include the paper title, authors' names (with the presenting author underlined), institutional affiliation(s), and the corresponding author's e-mail ID. The last date for abstract submission is 15th September 2026. Full-length papers prepared in the prescribed format should be submitted by 17th September 2026. All submissions will undergo peer review. Accepted papers will be published in the Conference Proceedings with ISBN number. Selected papers will be considered for publication in peer-reviewed journals with ISSN number subject to editorial policy and review process. Submit your Abstract / Full-Length Paper to: icgreen2026@gmail.com
